WOULD SPLIT UP ARMENIA, CHARGED AGAINST ALLIES

U. S. Committee Issues Claim That Entente Premiers Have So Planned

Into Four Parts, With Only a Remnant to be an Armenian Republic

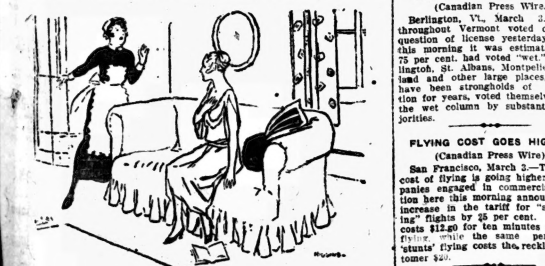

(Canadian Press Wire).—The American Committee for the Independence of Armenia today issued an appeal, asking Armenians to protect their action, and also to demand the end of Turkish rule there. The committee is headed by James W. General, former Ambassador to Germany. The proposed plan of the Premier, dividing Armenia into four unequal parts, according to the committee, follows:

His Mediterranean district, which is assigned to France. Its central provinces have been annexed to a proposed Kurdish state under British protection. Its northwestern portions have been left under Turkish sovereignty. And what remains of it is made into an Armenian republic, thus shut off from her littoral on both the black and Mediterranean seas, landlocked, and robbed of her chief resources—cannot achieve real independence or self-support as a nation.

NEW ANTI-INFLUENZA SERUM PREVENTS AFTER-PNEUMONIA

Army Medical Men in Montreal District Getting Good Results

(Canadian Press Wire).—Montreal, March 2.—A new anti-influenza serum is now being used by Col. Bridge, A.D.C., and the medical officers of M. H. No. 2, as a preventive, not only of the influenza itself, but chiefly of the pneumonia which follows it. This is a serum known as the polyvalent serum, and it is administered subcutaneously, just as the anti-typhoid serum with the overseas troops. Col. Bridge stated yesterday that all the officers and men of the R. C. H. stationed at the Peel street barracks were inoculated with this serum last week, following a mild outbreak of the influenza at the barracks. Whether or not it was a result of this treatment, the outbreak had been of a very mild character, and there have been no cases of serious after-complications.

NO MORE TANKS ALLOWED ON THE CITY STREETS

Aldermen So Decide After Quite a Sharp Debate

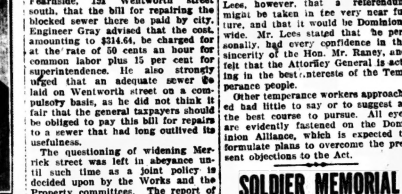

MERRICK STREET

Question Stands Pending Joint Action of Committees

By a vote of 6 to 3 the Works Committee last night endorsed the report of the special gasoline tank committee that no further permits be granted for such tanks, and that forthwith they cease to sell gas oil for three months, more from their present location, close up or make an assignment. This affects all such tanks that are on city highways. These tanks not located on the city highways are immune from the restriction. The report was not adopted without considerable discussion. Ald. Birrell was much opposed to the report as he pointed out that such tanks were an absolute necessity. In Hamilton at the present time there were 5,000 pleasure autos, 700 motor trucks, and 300 motor cycles.

TILBURY GAS SUPPLY ALSO SAID TO BE PETTERING OUT

Commissioner, at Windsor Told Higher Rates Needed to Get New Wells

(Canadian Press Wire).—Windsor, Ont., March 3.—W. J. James, General Manager of the United Gas & Oil Co., which controls part of the gas fields at Tilbury, near which city claims the supply of natural gas for the city, today being conducted here by Provincial Gas Commission, stated that his company would have to discontinue supplying natural gas unless higher rates were granted in the future than at present. Mr. James is one of the owners of the large manufacturers have been denied natural gas, but, in spite of this fact, the amount supplied to the border cities has decreased, a fact which Mr. James said would be felt more in the future than at present. He stated the company obtained sufficient natural gas to supply the city, but the gas is the property of the land owner. "Notwithstanding the statements of interested politicians that it belongs to the public," E. C. Steele, superintendent of operations of the Union Company, denied that some of the gas wells had been damaged up at a time when the gas was most needed by the public. He stated that pressure and other reports would prove this. President Finchard told City Solicitor that the company is running at a loss to the shareholders.

MANITOBA'S DRY MEASURE

Amendments Planned to Control the Traffic

Physicians Limited As to Prescriptions

(Canadian Press Wire).—Winnipeg, March 3.—The Canadian Press—By the bill amending the Manitoba Temperance Act, which was introduced in the House yesterday afternoon, Government vendors are authorized to purchase or sell liquor, and it is stipulated they must not sell more than five gallons per day to a licensee or retail druggist. Medical men are limited to two quarts a day, destined to a patient, and a veterinary surgeon to a gallon. The sale of liquor to wholesale druggists is abolished. Accurate records of purchases must be kept, and returns made to the chief inspector. Sales of liquor are limited to 100 prescriptions a month, and must not exceed 100 in possession at any one time. Infringement of the act are for first offence punishable by a fine not less than \$400 and not more than \$1,000. WEALTH AND MONEY ARE NOT SYNONYMOUS

Able Address On Exchange Question By Mr. J. P. Bell.

HAMILTON IN EAST

Best Known of All the Ontario Cities, Says Maj. Trenaman.

"I think that the United States will not be able to stand the drain upon her gold reserves much longer, without putting up a bargain with us," said J. P. Bell, general manager of the Bank of Hamilton, addressing the first meeting of the Ad. Club for the year at its luncheon in the Connaught last night. The speaker's address for the luncheon was unable to be presented, owing to illness, and Mr. Bell continued to speak at the last moment. He delivered a splendid address upon financial conditions with regard to the exchange situation.

Mr. Bell first spoke of money and wealth is different forms as it has been changed and fluctuated through the years.

"Wealth and money are not things synonymous," declared Mr. Bell. "Wealth, taken properly, represents power, and can be utilized and put to use for the benefit of the community. Money is the shadow of goods, and represents a very limited and temporary power. Money is only a sign of credit, a symbol of value. It is not a tangible wealth."

"The value of the dollar is 25.2 cents," he said, actually. "Gold, however, is of value. It is not a tangible wealth, but it is really a servant of the future. Like all other things, however, it has been changed and fluctuated through the years. It has been tried, it has been tested, and it has been found to be the best available for the purpose, the most easily collected, the most certain, and the most useful."

Mr. Bell then spoke of the various forms of money that have been used in different countries, and of the different currencies that have been used in the world.

OTTOMAN EMPIRE REDUCED TO A DUST

Turk Frontiers to Hold Only 6,000,000 People.

Navy Wiped Out, Sultan's Sway Small.

London, March 2.—The once powerful Ottoman Empire was finally reduced to a dust, according to the decision of the Allied Supreme Council, which has decided to restrict Turkey's future to a small corner of Anatolia. The decision, which was announced last night, states that the Sultan, titular emperor of the Ottoman Empire, will be reduced to a figurehead, and that the Caliphate will be a purely religious office, with no political power. The decision also states that the Turkish population will be reduced to 6,000,000 people, and that the Turkish navy will be wiped out.

Territorially, the Turkish state, formerly extending from the Danube to the Persian Gulf, will be reduced to a small corner of Anatolia. The decision also states that the Turkish population will be reduced to 6,000,000 people, and that the Turkish navy will be wiped out.

MacKenzie King Firm For An Early Election

(Canadian Press Wire.)
Toronto, March 2.—The Toronto Daily Star to-day has this dispatch from Ottawa:—
Hon. MacKenzie King to-day authorized The Star to say he was perfectly sincere in his demand for an appeal to the people at the earliest possible moment. A story was in circulation last night that he sent one of his lieutenants over to the Government two days ago, with a message to the effect that he did not want an election any more than the men wanted one.
"That story is absolutely untrue," declared the Opposition leader.
"The Liberal Party believes there should be an appeal to the people at the earliest possible moment," he said, in offering any amendment to the address in reply to the motion from The Throne, "I was quite sure that the Government had lost the confidence of the House. There should be a new Parliament."

Concentration Will Save \$16,000 This Year

Several members of the City Council when spoken to today attached little importance to the threat of Alde Birrell and Pwernmawr to the city council's decision to concentrate the city's refuse on the site of the old junction against those of their colleagues who voted in favor of the city purchasing the liremum property on Ferguson avenue north for use as an asphalt plant.

These members pointed out that the figures, compiled by City Engineer Gray, in which it was shown that a substantial saving could be effected by the city by concentrating its asphalt plant on the site of the old junction, amounted to \$16,000.

Waddell has advised that the city cannot be upset, incline to the side that Alde Birrell and Pwernmawr are taking. He said that the city must stand by the decision of the council. Several aldermen and controllers insist that no injunction can be obtained from the courts to prevent the city from concentrating its refuse on the site of the old junction. "It is right when we do the deal was legal."

More than 100 will be heard on the matter, however, at the next meeting but no fresh depositions are looked for by the majority of the members of Council.

It is worthy of note, too, that while Gray has been the city engineer for the last 10 years, he has not been a member of Council.

mined ratepayer that the move was a good one. Such a plan would not only mean a large saving of civil funds, but would result in the city getting better service and consequently better roads.

hours but 60 new cases were reported—a sharp falling off that was cited as evidence that the epidemic was spending itself. Two deaths were reported, and the total number of cases was 1,000.

The weather man forecasts that the epidemic will be kept in check. Health officials say such weather cannot come too soon, so far as they are concerned, but they agree that it will be the one agency to ward off the flu and make him take worst of all.

But as the warmer weather comes, the need for caution is just as great. It is hard when spring is approaching to keep hands clean and feet warm. Temperature. To sit in a stuffy room.

DINK DINKING FOREIGNERS IN TROUBLE MAKER

Comment of Judge Smith On the Criminal Cases in Court.

FIRST CIVIL CASE

Old Sun Life Tenant Disturbed in His Business.

True bills were brought in by the grand jury yesterday afternoon in County Court on all four criminal charges which will be heard. The first and the second cases were those of E. Rodden, owner of Norman and Maggie Lee, obstructing a police officer; Joseph Vollick, aggravated assault; and James Bradley, assault on a police officer. Crown Attorney Hamilton stated that the charges would not likely be heard until Thursday.

When court opened at 2 o'clock, it was found that four of the grand jury did not answer to the roll call. At 2:15 o'clock the absent ones popped his head in the doorway and made known his intention to attend court. Mr. Rodden, Hugh McCullough and William H. McCullough will act as counsel.

James McCullough, the absent juror, was called to the witness stand. In addressing the grand jury, said that four criminal cases would be heard. This was unusual, as those charged with criminal offences generally elected to be tried by a judge without a jury.

His Honor pointed out that to bring in a true bill, seven of the grand jury must concur. One of the criminal cases was that of a man who was charged with assault on a police officer. The man was charged with assault on a police officer.

The third case was that of a man drawing a revolver and threatening to shoot the peace officer. The man was charged with assault on a police officer.

Further than that, his business had been interfered with and he was not as much as a man for a short while before the building operations started. The man was charged with assault on a police officer.

Mrs. Malone, wife of the plaintiff, said that since last October, Mr. Malone had been away from his home. She was charged with assault on a police officer.

The next witness called was John Davis, employed as overseer of the building operations, who said he thought the work would be completed in about two months. The man was charged with assault on a police officer.

Representatives of local union no. 1234 of the International Union of Marine and Shipbuilding Workers of America, held a conference yesterday in reference to the strike which was called by the union.

Mr. M. M. Schenck represented the local union and Mr. Clark Brown was also present while local union representatives held the conference. The man was charged with assault on a police officer.

Quebec Women's First Vote. (Canadian Press Wire). Montreal, March 3.—For the first time in the history of the province of Quebec, women will exercise the franchise tomorrow.

They are looking for the latest case to find it. The man was charged with assault on a police officer.
